2019 NOVEL CORONAVIRUS REAL TIME PCR

| | | | |
|--------------|---|------------------------|------------------------|
| Specimen | : Oropharyngeal and Nasopharyngeal swab | Sample Collection Date | : 21-May-2021 11:31 AM |
| Accession No | : 162210521098 | Verification Date | : 22-May-2021 08:45 AM |

| Parameter | Result | Unit | Biological Reference Interval |
|----------------------|-----------------------------|------|-------------------------------|
| SARS-COV 2 RdRp Gene | 30.53 | | |
| SARS-COV 2 E Gene | 29.37 | | |
| FINAL INTERPRETATION | 'POSITIVE FOR SARS - CoV-2' | | |
| SRF ID | 2952512765816 | | |

Comments

1. Negative result does not rule out the possibility of COVID infection. Kindly correlate the results with clinical findings. A negative result in a single upper respiratory tract sample does not rule out SARS-CoV-2 infection. Hence in such cases a repeat sample should be tested. Lower respiratory tract samples like Sputum, BAL, ET aspirate are appropriate samples especially in severe and progressive lung disease.
2. False negative results may be attributable to presence of inhibitors, contamination & insufficient RNA specific to SARS-CoV-2 in the given respiratory tract sample.
3. Laboratory investigations are only a tool to facilitate in arriving at a diagnosis. Kindly consult referring Physician/ Authorized hospitals for appropriate treatment and follow up.
4. This is a qualitative test. The Ct values do not provide a measure of viral load or the severity of the disease due to inherent variability in the kits used and the method of sample collection. Please refer to the ICMR advisory on Ct values for details (https://www.icmr.gov.in/pdf/covid/techdoc/Advisory_on_correlation_of_COVID_severity_with_Ct_values.pdf).
5. Test results released pertain to the specimen submitted.
6. As per ICMR guidelines, the contact and test details of all patients undergoing COVID testing need to be uploaded on the ICMR reporting portal and the same will be accessed by stakeholders including IDSP, MOHFW for timely initiation of contact tracing and appropriate control measures.
7. ICMR ID of SAKRA WORLD HOSPITAL LABORATORY Bangalore – SWHLS001.
